

Rocky Mountain Woodturners

Industrial Sciences Wood Lab -West Laurel ST. ● Fort Collins, CO
January 25, 1995

Dear Turner:

The January meeting was once again well attended. Membership dues of \$12 were collected. Lee Carter demonstrated 25 different methods for holding material on the lathe, including both commercial and home made chucks.

We are very excited about the agenda for the February meeting. Bonnie Klein has graciously agreed to extend her stay in Colorado to do a presentation for our club. She will demonstrate turning boxes with threaded lids. Handouts will cover the step by step process and include plans for a threading jig. To cover the cost of Bonnie's presentation, non-members will be charged \$5, members \$4.

PLEASE NOTE!! The February meeting will be held on Wednesday, February 8 so Bonnie can be at our meeting the night following her presentation at the Front Range Woodturners.

We have been asked to consider moving our meeting to the third Thursday of the month in order to more easily accommodate members who also attend the Front Range Woodturners meeting on the second Tuesday of the month. Come prepared to vote for your preference.

Due to Bonnie's presentation at the February meeting, the schedule of topics for future meeting has been revised as follows:

<u>Date</u>	<u>Topic</u>	<u>Presenter</u>
March 9	Segmented turning	Kurt Theobald
April 9	Sharpening	Dave Nittman
May 13	Finishing	Gene Wentworth
June 11	Carving	Dick Branecki
July 8	Design	David Nittman

To decrease mailing expenses, this newsletter is being sent only to paid club members. If you know someone who missed last months meeting, or someone who may be interested in attending Bonnie's presentation, please tell them about it. We will be sending public service announcements to newspapers and radio stations as well as posting flyers at Sears Trostel, Builders Square, and Wood Emporium.

For the February meeting, bring something for the raffle, and YOUR OWN NAME TAG.

See you then,
Dave Nittman & Linda Fellion
