Tom Farrell
Metal Spinning 101

I have been turning wood for about 40 years now. In that time I had the privilege of spending some time with Rude Osolink. Rudy got me started spinning metal. My demo will show everything you need to know to get started with metal spinning.

Some topics I will cover are:

Form, chuck, mandrel - construction
Follow blocks on live centers
construction of the spinning rest
construction of a combination spinning tool
Types of metal good for spinning sources of metal spinning lube

The spinning demo
Getting further information on spinning
and as time permits, a hands on lesson for anyone who is interested (wear old clothing).

I will bring some examples of woodturning integrated with spun metal.

Wood Storage Bank

As we have discussed before, we are collecting wood for our group. There are 3 of us collecting wood. They are Dave Amos, Bruce Pilkington and Kevin Dunn. We are still getting this rolling. But I have a huge boxelder tree and a very nice blue spruce trunk that I acquired. Also, I have past blanks and projects available. Whatever doesn't get spoken for, goes to feed my fireplace this winter. Kevin Dunn
